

MindXR 2025 Poster Presentations

Session of presenting	Name of presenting author	Title of abstract
June 25, (A)	Kumari, Sushma	Exploring parallels in Humans and AI prospective memory task performance embedded in a virtual week game
June 25, (A)	Slater, Mel	Empathy Through Embodiment: Using the Golden Rule Embodiment Paradigm to Combat Gender-Based Harassment in XR
June 25, (A)	Zhang, Ju	Effort-Driven Haptic Interaction for Pain Perception in Virtual Reality
June 25, (A)	Hannibal, Sandy	XR2esilience: Study Protocol for Pioneering XR-Supported Resilience Training for Nurses
June 25, (A)	Schrader, Mareike	PAN-Assistant—A spatial navigation training and assistance system for individuals with severe cognitive impairment
June 25, (A)	Salvadori, Elio	EDI-PASS: A Participatory Research Study on the Integration of Digital Devices Virtual Reality-related in Socio-Healthcare Contexts
June 25, (A)	Ruckser, Nadja	Assessment of craving and pupillometry in patients with alcohol use disorder during virtual reality cue exposure: Preliminary results of the CRAVE study
June 25, (A)	Pnacek(ova), Michaela	Affective VR: Uncovering Emotion & Mental Effort with Biosensors
June 25, (A)	Lobser, David	Exploring Consciousness Through Brain Candy's Rhythmic Sensory Design
June 25, (A)	Brandenberger, Diego	Comforting One's Younger Self: The Impact of Self-Recognition in a VR Environment
June 25, (A)	Navas-Medrano, Samuel	Bridging Distance in Therapy: A Mixed Reality Gamified Approach to Mental Health
June 25, (A)	Bergstein, Yehuda	Studying insight learning in a virtual reality maze for humans
June 26, (B)	Li, Chaojing	Echoed-Grin: Smile to overcome loneliness
June 26, (B)	Tosti, Anna Enrica	Real-Time Monitoring of Sustained Attention: Enhancing Cognitive Assessment Through Eye-Tracking and AI
June 26, (B)	Sanchez-Vives, Maria	Mental health effects of a multimodal virtual rehabilitation program for chronic low back pain
June 26, (B)	Krauss, Jana	TooCloseVR - Cyberbullying Prevention in Virtual Reality
June 26, (B)	Zaman, Aribah	Autonomy and Mindfulness in VR Sandbox
June 26, (B)	Döllinger, Nina	A Framework for Integrated Processing of Virtual and Corporeal Bodies in Virtual Reality
June 26, (B)	Quirós-Ramírez, Maria Alejandra	Does the behavior of personalized 3D avatars carry on perceived personality traits?
June 26, (B)	Frund, Roxane	Comforting One's Younger Self: Co-Creating a Self-Compassion Intervention Using Generative Artificial Intelligence and Virtual Reality
June 26, (B)	Colombini, Giulia	The Eyes as a Window to Depression: A Real-Time AI-Based Eye-Tracking Model for Emotional Contagion and Depression Assessment
June 26, (B)	Son, Gayoung	Dyadic Interactions in Social VR: Shaped by Psychological Traits but not by Anonymization
June 26, (B)	Remde, Christopher	PERISKOP: Patient Empowerment through immersive hospital experiences before operations or procedures
